

MANIACS

RACING BEYOND LIMITS

A TEAM, ONE VISION

To create the first global RC Racing hub and the **world's best First Person View RC Cars.**

Our mission is to unify the fragmented RC Racing market and bring players, track owners, creators, and brands together in a fully gamified, digital-first racing economy

POWERED BY SOLANA

WHAT IS LACKING IN THE RC RACING INDUSTRY

The absence of meaningful progression, tangible rewards, and personalized challenges often results in stagnant player experiences, limiting immersion, satisfaction, and overall enjoyment.

No unified platform for competitions, rankings, or global leagues

Lack of rewards for participation, skill, or content creation

Current services trigger low retention

Real-life races are local, inaccessible, and disconnected from digital monetization

Track owners and manufacturers operate in silos with little community or global reach

Unstable and disengaged communities

OUR APPROACH

Maniacs is the first all-in-one ecosystem for RC Racing.

SOLUTIONS

A web 3- powered platform connecting racers, track owners, sellers, creators

Tokenized ownership (NFT-RWA) and revenue-sharing for vehicle owners

Real-time remote FPV RC racing with premium cars and immersive HUDs

A play-and-earn model rewarding users with token and NFTs

Dual onboarding: fiat/guest access for Web2 users, wallet access for Web3

ECOSYSTEM BENEFITS

ENHANCED REVENUE STREAM

BROADER MARKET REACH

INCREASED ENGAGEMENT

INTERACTIVE GAMEPLAY

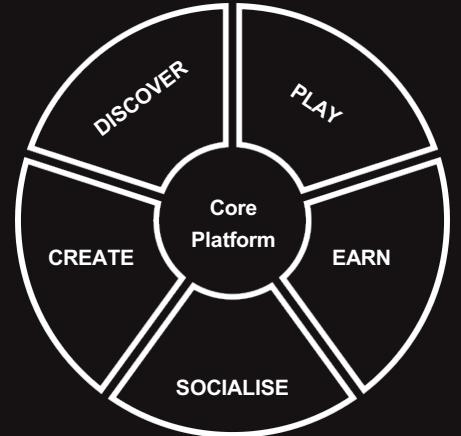

GLOBAL ADOPTION

BRIDGING WEB 2.0 & WEB 3.0

PRODUCT DEMO

Maniacs combines a global RC Racing hub with in-house-built, premium First Person View (FPV) RC cars.

GLOBAL RC RACING HUB

The first unified platform for the entire RC Racing ecosystem — from casual hobbyists and pro racers to track owners, manufacturers, event organisers, and creators — all connected through one seamless digital hub.

Powered by the Solana blockchain, the platform delivers:

- Transparent, verifiable race results
- Instant global payouts and token rewards
- NFT-based vehicle ownership and progression
- A unified marketplace for parts, upgrades, and services
- Governance tools, ranking systems, and scalable league mechanics

PREMIUM FIRST PERSON VIEW RC CARS

We've developed and tested three high-performance FPV RC car models in-house, featuring:

- 4K Moonlight-stabilised cameras
- Real-time telemetry: speed, distance, G-force, battery
- Gyro-assisted control with long-range remote access
- Rugged, waterproof, fibre-reinforced chassis

These aren't just vehicles — they're fully integrated into the Maniacs platform.

Designed as both an exciting entry point and a foundational utility, they merge physical racing with digital ownership to unlock new layers of adoption, monetisation, and entertainment in RC racing.

BUSINESS MODEL

Direct FPV RC Car Sales

Premium high-performance FPV RC cars sold via B2C and B2B channels, including limited editions, pre-orders, and branded models.

Race Entry Fees

Access fees for casual races, official leagues, and private events—payable in fiat or tokens.

Event Fees & Sponsorships

Revenue generated from sponsored tournaments, branded tracks, and commercial broadcasting rights.

Rentals of Community-Owned Vehicles

Community members can list NFT-owned FPV cars for rent via the platform, creating a scalable peer-powered fleet.

Digital Asset Marketplace

Transaction commissions from a vibrant Web3 marketplace trading parts, car upgrades, cosmetic items, and exclusive NFTs.

NFT-Linked Vehicle Ownership (RWA)

Users can purchase NFT representations of real cars and earn tokens through structured leasing to Maniacs events and partner venues.

Premium Memberships & Subscriptions

Optional subscriptions unlock enhanced telemetry tools, exclusive access, early drops, and personalized digital garages

TOKEN SINKS

Competition Access

Token-based entry to exclusive races, tournaments, and challenge circuits.

Upgrades & Customization

Performance and aesthetic upgrades for FPV cars—suspensions, cameras, body kits, telemetry HUDs, etc.

Loot Boxes & Limited Editions

Randomized reward drops including skins, parts, boosters, and rare vehicle variants.

Private Event Creation

Organize custom races or closed-group tournaments using our tokens.

Premium Features

Access to advanced tools—real-time telemetry, driving analytics, personalized garage UI, and digital dashboards.

Digital Asset Marketplace

Trading NFTs (tokens, access, skins etc).

Remote Race Access

Reserve private FPV race slots and directly challenge other racers across the globe.

Locking & Governance

Lock tokens to participate in governance, league votes, or earn additional rewards.

WHY SOLANA?

Maniacs is built on Solana not just for its unmatched speed and scalability, but because it aligns perfectly with the culture, creativity, and energy of its ecosystem.

Transparent Results & Reward Distribution

Full Traceability

On-chain race outcomes and verifiable token payouts create a fair, trustworthy competition environment.

Every car, race, transaction, and upgrade is recorded on-chain—enabling transparent history and performance tracking.

Fast, Low-Cost Transactions

Solana's sub-second finality and negligible fees enable global tournaments, real-time telemetry, and gamified microinteractions.

Robust Token & NFT Infrastructure

Solana supports advanced logic for \$MACS tokens, NFT ownership, staking, and vehicle-linked RWA assets.

True Digital Ownership

Players, collectors, and creators truly own their FPV cars, upgrades, and achievements via tokenized assets.

High Throughput & Global Scale

Built to handle thousands of simultaneous events—essential for real-time races, streamable tournaments, and scalable engagement.

Cultural Fit: Built for Solana's Vibe

Maniacs thrives on the same high-energy, experimental, and community-first spirit that defines Solana. From gamified mechanics to creator-centric tools and digital-native design, the platform naturally aligns with Solana's entertainment-driven ecosystem.

Market Opportunity

- **\$2B+ global RC market** with millions of users across hobby, pro, and commercial segments
- **Web3 gaming and digital ownership** gaining traction
- **No competitor** currently combines real RC vehicles, platform analytics, and token-based value
- Massive **economy potential creator** via livestreams, tournaments, and branded leagues

The global RC (Remote Control) vehicle market was valued at approximately \$2.4 billion USD in 2023, and it is projected to reach over \$3.6 billion by 2030, growing at a CAGR of around 6%.

Within this, RC racing—though a niche—represents one of the most active and monetizable segments due to:

- **Competitive leagues and events**
- **Hobbyist and professional demand** for high-end products Increasing adoption of FPV systems
- **Rising content creation and streaming** tied to RC races

MARKET FIT

Blockchain

The global blockchain technology market is poised for rapid growth, with the market size expected to expand from approximately **\$17.61 billion in 2023** to **\$2,679.2 billion by 2031**, reflecting an impressive compound **annual growth rate (CAGR) of 84.7%**¹.

This growth is fuelled by the increasing adoption of blockchain across various sectors, including financial services, healthcare, and supply chain management, due to its ability to enhance transparency and efficiency.²³⁴

TRACTION & VALIDATION

- 3 fully built FPV RC car prototypes successfully tested.
- Live demos at events with strong engagement.
- Initial discussions with track owners in the EU for onboarding and co-branded tournaments.
- Early creator partnerships in motion (streaming, content, affiliate).
- Positive feedback from Solana and other web3 communities and IRL RC clubs.
- Two panels at NFT Bucharest.
- Started connecting with the community.

COMPETITIVE ADVANTAGE

Traditional Competition	✓	✗	✗	✓	✗	✗	✓	✗	✗	✗	✗

First-Mover in RC + Web3

The first platform to unify real-world RC Racing, blockchain tokenomics, and FPV innovation—unlocking a new category in motorsports and gaming.

All-in-One Ecosystem

The only hub that integrates racing, asset ownership, rentals, streaming, community events, and a parts marketplace—all under one platform.

Global Reach with Solana

Built on Solana for ultra-fast, low-cost, transparent transactions—enabling real-time reward distribution, remote participation, and global scalability.

In-House Vehicle Manufacturing

Our proprietary FPV RC cars are built in-house, giving us unmatched control over quality, performance, and hardware innovation—unseen in today's RC market.

Real NFT Utility

NFTs in our ecosystem represent real value: physical ownership, vehicle rental income, access rights, exclusive race entry

A New Vertical: RC x Web3 x Creator

Economy We merge gaming, content creation, and DePIN logic with physical racing—creating monetization lanes for racers, builders, promoters, and creators alike.

Dual Onboarding: Web2 + Web3

Maniacs offers seamless access for both mainstream users (fiat, email) and Web3 users (wallets, NFTs, tokens), maximizing adoption across demographics.

GO-TO-MARKET STRATEGY

Community Growth & Engagement

- Gleam Contests & Social
- Campaigns AMAs & Livestreams
- Gamified Referrals & Quests
- Global Ambassador Program

Product Launch & Pre-Sales

- Limited Edition Pre-Orders
- Kickstarter Campaign
- Early Adopter B2B Incentives

Web Onboarding & User Activation

- Gamified Web Onboarding
- Referral & Loyalty Systems

Strategic Partnerships & Deployments

- Venue Deployment (IRL)
- Ecosystem Partnerships

Competitive Play & Events

- Track-Based Leagues
- Tournaments Conference Showcases (Solana Breakpoint)

Awareness & Content Amplification

- Influencer Collabs
- Merch & Product Giveaways
- Strategic Airdrops

OUR TEAM UNITED BY SPEED, INNOVATION, AND COMMUNITY

At Maniacs Global Entertainment, we're a team of builders, engineers, visionaries, and racing fanatics. We believe in a future where real racing, digital ownership, and community-driven entertainment collide—and we've brought together the talent to make it happen.

Marius Dulhaniuc
Co-Founder, CEO

Entrepreneur with over 10 years of experience in team leadership, operations, and digital strategy. Passionate about motorsports, Web3, and scaling high-impact ecosystems.

Paul Arion
Co-Founder, CFO

Visual Effects veteran with key roles on Oscar-winning teams behind *Jungle Book*, *Prometheus*, *Dune*, *Avengers*, and more. Brings deep cinematic storytelling expertise and strategic production oversight to Maniacs.

Sebastian Radu
Senior Advisor

Former regional founder of ESL and executive leader in SaaS and sports platforms. 20+ years of experience in tech, media, and digital community building.

Florin Nedelcu
CTO

Veteran technology leader with 12+ years in both Web2 and Web3. Former CTO in a blockchain project, architect of scalable platforms and decentralized systems.

OUR TEAM

Vlad Zamfir
Development Lead Romania

Technical coordinator with strong roots in the Romanian development ecosystem. Oversees local infrastructure, track partnerships, and growth.

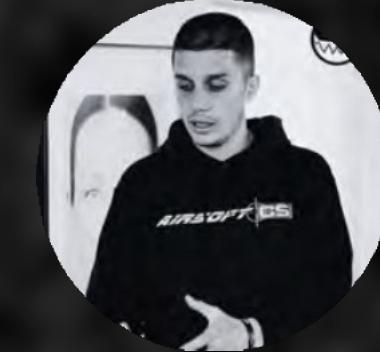

Tudor Mihai
Head of Partnerships and Growth

Sports community builder and airsoft entrepreneur. Connects Maniacs with racing clubs, sponsors, and event partners.

Pedro Macedo
Product Development Engineer & RC Specialist

Hands-on builder of our FPV RC cars. Expert in drone racing, custom vehicle engineering, and hardware innovation.

Dragos Paraschivu
Community Engagement and Social Media

Community Engagement & Social Media Creative strategist with a background in crypto, SecOps, and humanitarian work. Leads content, engagement, and user activation across platforms.

Marian Palaghiu
Frontend developer

Specialized in modern UI frameworks and performance-focused front-end systems for Web3 products.

Alex Sitaru
Fullstack developer

Bridges backend architecture and front-end usability. Experienced in smart contract integrations and decentralized platforms.

NEXT STEPS AND ASK

Next (short-term):

- Finalize Solana smart contracts.
- Whitepaper update.
- Website update. Tokenomics update. User Account Structure.
- Launch our draft website and onboarding game.
- Conduct live beta races across 5 venues.
- Register our FPV RC Cars. Finalize our companies set-up.
- Case study for a potential mini production factory for FPV RC Cars in Portugal.

We are seeking:

- Advice
- Technical & ecosystem support from Solana/Colosseum.
- Early investment for vehicle production, platform scaling, and international rollout. Help recruiting key creators, track owners, and strategic partnerships.

Together, we can turn ground breaking ideas into global achievements.

Let's make history—partner with us and fuel the future of gaming.

Invest in innovation; invest in a game-changing venture.

THANK YOU
